

Dear Parents and Carers,

On Wednesday 16th February we will be taking part in one of our Spotlight Days. This will involve your child learning about how to keep themselves safe online, showing respect to others online and also making sure everyone is kind when using the internet.

We will be asking children to come into school in either non-uniform or dressed as their favourite gaming character (as long as this is appropriate for school). There will be no charge for this.

There will also be a competition running for you to do at home where you can design a T-Shirt which shows how you will show respect and kindness to others online. The winner will then have their T-Shirt made for them to wear at home.
