# E-SAFETY TIPS

## The Legends' Code

- 1. Think before you share

Your child learned about how quickly things can be shared online and why it's important to only share things they'd be happy for everyone to see.

- 2. Protect your stuff

Your child learned what tools are available to keep their stuff safe online – passwords, privacy settings and more – and why they are so important.

- 3. Check it's for real

Your child learned that not everything you see online is true and heard some tips for spotting online scams. We told your child that if they're not sure about something, they should always check with you.

- 4. Respect each other

Your child heard about how important it is to treat other people the way they want to be treated online. They learned how to report bad behaviour and abuse.
